

[Music]

When we first met I never woulda guessed
That it would bring me here

[Music]

Now there's no question of where I wanna go
I've known that for years
Can you see forever
And will your love last and if it will
There's just one more thing that I need to ask

[Music]

Will you marry me
I can't wait no more
After all this time together you are what I was put here for
So stand by me walk with me through life

[Music]

Will you marry me

[Music]

When we first met I never woulda guessed
That it would bring me here

[Music]

Now I can't see me without you throughout the years

[Music]

I've waited anticipated for this day
Now there's just one more thing I need to say
Yes I'll marry you
I can't wait no more

After all this time together you are what I was put here for
So stand by me walk with me through life

[Music]

Yes I'll marry you

I'll be your wife

So today is the first day of the rest of our lives

[Music]
